RE: Denali Stone Detectable Warning Panels

Dear Mr. Hernandez:

The City of Colorado Springs has completed its review of your product submittal, Denali Stone Detectable Warning Panels, for use in the City right of way. This product has been approved for use in the City of Colorado Springs right of way as an acceptable product where truncated domes are specified for use. The only color that is acceptable will be those panels which are prefabricated reddish integrally colored dome panels.

This product, Denali Stone Detectable Warning Panels, will be posted on the City's Truncated Dome Detectable Warning Materials Approved Products list. The City will list the product, as well as the supplier for this product.

Please be advised if the City determines this product is not performing to the specifications approved, the City reserves the right to discontinue allowing the use of this product in the City right of way.

If you have any questions, please contact me directly at (719) 385-5078, or by email at [sbodette@springsgov.com](mailto:sbodette@springsgov.com).

Sincerely,

Steve Bodette  
Engineering Inspector Supervisor
